

120 Java Interview Questions

Question Bank

Java Basics

1. What is Java?
2. Why is Java platform-independent?
3. What is JVM?
4. What is JRE?
5. What is JDK?
6. What are data types in Java?
7. What is a variable?
8. What are identifiers in Java?
9. What is a class?
10. What is an object?
11. What is a constructor?
12. Types of constructors?
13. What is a method?
14. What is method overloading?
15. What is method overriding?
16. What is the difference between overloading & overriding?
17. What is the main() method?
18. Why is main() static?
19. What is static in Java?
20. What is final in Java?
21. Difference between final, finally, and finalize?
22. What are access modifiers?
23. What is the difference between public, private, protected?
24. What is type casting?
25. What is implicit and explicit casting?
26. What are keywords in Java?
27. What are comments in Java?
28. What is a package?
29. What is the use of import?
30. What is naming conventions in Java?

Object-Oriented Programming

31. What is OOP?
32. What are the 4 pillars of OOP?
33. What is encapsulation?
34. What is inheritance?
35. What is polymorphism?
36. What is abstraction?
37. What is an abstract class?
38. What is an interface?
39. Difference between abstract class & interface?
40. Can we create an object of an interface?
41. What is multiple inheritance?
42. Does Java support multiple inheritance?
43. What is super keyword?
44. What is this keyword?
45. What is constructor chaining?
46. What is method hiding?
47. What is 'is-a' and 'has-a' relationship?
48. What is nested class?
49. What is inner class?
50. What is static nested class?
51. What is anonymous class?
52. What is composition?
53. What is aggregation?
54. What is object cloning?
55. What is the clone() method?
56. What is a String?
57. Difference between String, StringBuilder, StringBuffer?
58. Why are Strings immutable in Java?
59. What is string pool?
60. What is equals() vs == ?

Arrays, Strings and Collections

61. What is an array?
62. What are multi-dimensional arrays?
63. What is ArrayIndexOutOfBoundsException?
64. What is Arrays class?
65. How to sort an array in Java?

- 66. What is varargs?
- 67. What is StringTokenizer?
- 68. What is substring()?
- 69. What is toCharArray()?
- 70. What is split()?
- 71. What is trim()?
- 72. What is String.format()?
- 73. What is charAt()?
- 74. What is length vs length()?
- 75. What is join() method?
- 76. What is collection framework?
- 77. What is List?
- 78. Difference between ArrayList and LinkedList?
- 79. What is Set?
- 80. What is HashSet?
- 81. What is LinkedHashSet?
- 82. What is TreeSet?

Maps, Iterators and Generics

- 83. What is Map?
- 84. What is HashMap?
- 85. Difference between HashMap and Hashtable?
- 86. What is LinkedHashMap?
- 87. What is TreeMap?
- 88. What is Iterator?
- 89. What is ListIterator?
- 90. What is fail-fast?
- 91. What is fail-safe?
- 92. What is Comparable?
- 93. What is Comparator?
- 94. Difference between Comparable & Comparator?
- 95. What are generics in Java?
- 96. What is wildcards in generics?
- 97. What is priority queue?
- 98. What is stack?
- 99. What is queue?
- 100. What is deque?

Multithreading, Exceptions and Other Topics

101. What is multithreading?

102. What is a thread?

103. What is Runnable interface?

104. Difference between Thread and Runnable?

105. What is synchronization?

106. What is deadlock?

107. What is race condition?

108. What is object lock?

109. What is class-level lock?

110. What is volatile keyword?

111. What is transient keyword?

112. What is serialization?

113. What is deserialization?

114. What is garbage collection?

115. What is exception handling?

116. What is try-catch?

117. What is throw vs throws?

118. What is custom exception?

119. What is JDBC?

120. What is a lambda expression?
